

We had a potluck party for members at Fuchu Community Center on 21 June. The number of participants were 88. Among them, there were 37 foreigners from 5 countries. Those were China, Laos, USA, Vietnam and India. Several members came to this party with their families and children who were very cheerful and lively. So we could get much energy from them. At the beginning of the party, we played the “Number Call Game” and introduced ourselves each other during the game.

Next, we had lunch. There were many great dishes on the tables that members prepared for today’s party. There were fantastic ethnic dishes with many spices that we Japanese don’t know well. And there were many nice Japanese dishes that we know so well. Every dish was so wonderful that all of us could very satisfied with it.

After lunch, we had some events.

At the first event, the members of Chinese, Vietnamese and an American lady sung songs of their own countries in their native languages.

The singers seemed so proud and happy. That made us happy, too.

Then we had Shamisen playing and Japanese dancing as traditional Japanese culture. The performers with beautiful Kimono were the center of attraction. We also enjoyed Japanese traditional culture so much.

At the end of this party, we had a lottery. Many participants got various prizes with their smiles. We all had very nice day.
